

Are the criteria of selecting LEDs only a price? Make use of LED-HAST for the reliability evaluation of LEDs !!

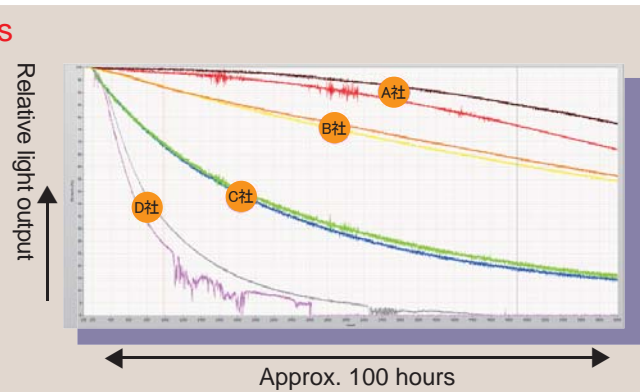

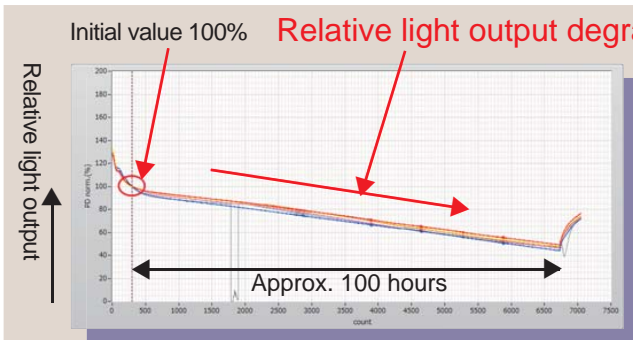

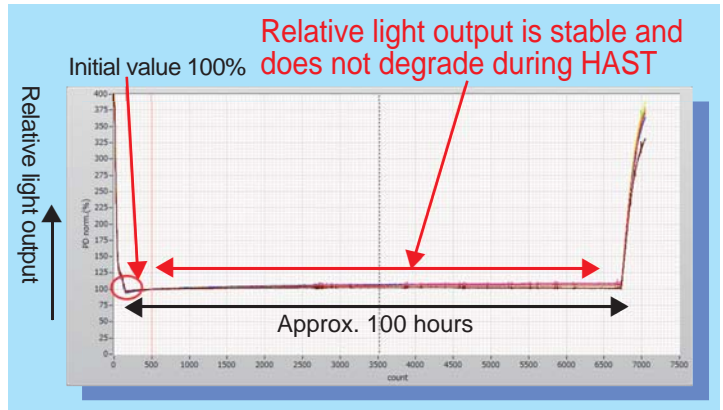

Long life LED

Short life LED

The life of InGaN-based LEDs is short

Evaluation of A>B>C>D is obtained as a result of moisture resistance test.

The reason why L-HAST has a good reputation.

- 1 Speedy reliability evaluation within 100 hours is possible.
- 2 Comparison is easy because the database of LED life is created.
- 3 L-HAST is introduced by major companies and is appreciated.

Specifications and appearance are subject to change without notice due to continuous product improvement.

Manufacturer :
HIRAYAMA Manufacturing Corp.

Distributor :

Manufactured under
ISO 9001 / 13485 / 14001

Overseas Sales Dept.
4-14-4-7, HATCHOBORI, CHUO-KU,
TOKYO 104-0032, JAPAN
