# ThermoStream<sup>®</sup> ECO-810-M

20 Amp, Ultra Quiet, No Annual Leak Testing Required

(EU F-Gas Regulation)

## **Data Sheet**

-80 to +225°C

The ECO Series is designed for any environment where audible noise and heat dissipation are concerns. It operates on an energy-efficient, 20 amp, 60Hz circuit with proprietary technology delivering quiet, smooth sounding operation. Additionally, the system **does not require annual leak testing** because its gas charge is below the CO<sub>2</sub> equivalent limit for greenhouse gas emissions as specified by Regulation EU 517/2014.

These fast, precise temperature forcing systems provide effective testing and conditioning of electronic components, boards and modules. Built with proven ThermoStream reliability and supported worldwide.

## PERFORMANCE

**Temperature Range\*** -80 to +225°C (60Hz) No LN, or LCO, Required

**Transition Rate**\* -55 to +125°C, approx. 10 seconds 125 to -55°C, approx. 10 seconds

System Airflow Output\* 4 to 18scfm (1.9 to 8.5 l/s) Continuous

\* under nominal operating conditions ultimate low temperatures (±1°) achieved at 12scfm

## **TEMPERATURE CONTROL**
