AUTOMATION

Product Summary

Tungsten InvoiceAgility™

InvoiceAgility is an AI-powered integrated solution that enables accounts payable (AP) teams to accept any invoice format from anywhere.

It boasts the industry's largest e-invoice network and represents the gold standard in touchless, straight-through processing for incoming invoices.

This powerful solution drives accounts payable accuracy with over 99% automated invoice processing, accelerating invoice approval time from days to minutes while ensuring business and regulatory compliance.

As supply chains continue to expand globally, AP teams need a single solution that reduces the complexities of government regulations, tax requirements, and myriad currencies and invoice formats.

InvoiceAgility combines the global scale of the Tungsten e-Invoice Solution with the seamless capability to capture incoming paper or image-based invoices through Tungsten's industry-leading AP Essentials cloud solution. The integration of key capabilities from this solution empowers AP teams to:

- **Accelerate Invoice Processing:** Accept paper or image-based invoices from any supplier anywhere – including countries with e-invoice regulations or mandates.
- **Ensure Accuracy and Compliance:** Validate invoice accuracy, tax compliance, and financial workflow rules to ensure invoice accuracy and speedy processing through the AP processes.
- **Obtain Actionable AI-powered Insights:** Analyze supplier invoice trends and optimize cash flow with the Tungsten Copilot.

Key Features and Benefits

Core Feature	Key Benefit
Invoice Ingestion:	Smarter, faster invoice capture
One Invoice Ingestion Process	Unified End-to-End AP Invoice Processing
Advanced Optical Character Recognition (OCR) Accuracy	Achieve High First-Time Data Extraction Rates
Pre-Trained Invoice Document Library	Rapid Identification of Invoice Information
Touchless Invoice Automation Service	Ensure Seamless Integration with Existing ERP

Invoice Compliance		Simplifying global regulations and mandates	
Simplified Country-Specific Compliance Automate compliance with diverse international regulations and mandates.		Enhance Validation & Reporting for 140 Countries InvoiceAgility automates validation and reporting across government platforms for countries with e-invoicing mandates. Extensive compliance coverage allows organizations to adapt to jurisdiction-specific formats in 140 countries without manual intervention.	
Industry’s Largest e-Invoice Network Tungsten processes millions of invoices annually, with automated compliance rules to meet regulations.		100% Regulatory & Tax Compliance InvoiceAgility boasts a global network of over 350,000 registered suppliers, plus the ability to connect to standards like PEPPOL, offering 100% compliance with government and business regulations.	
Invoice Workflow		Enhanced SAP Integration and Automation	
SAP Workflow with Process Director Enhance SAP Invoice processing with advanced workflow and long-term archiving capabilities.		Accelerate Compliance & Data Retrieval InvoiceAgility’s Process Director integrates with SAP to deliver robust workflow solutions combined with intelligent archiving functionality. Speed up data retrieval, categorization, and invoice indexing to maintain a clear audit trail and enhance AP performance.	
Zero Touch Invoice Automation e-Invoicing is delivered through complete automation.		AP Accuracy & Speed InvoiceAgility clients are achieving over 99% touchless invoice processing rates. Invoices are validated for accuracy automatically, reducing invoice processing times from weeks to minutes. Suppliers are immediately alerted to rectify billing errors, and they stay updated on payment status through complete invoice process visibility—eliminating time-wasting calls to AP departments.	
Invoice Analytics		Real-Time Business Intelligence	
Tungsten Copilot for Invoice Insights Transforms raw invoice data into strategic business intelligence using natural language generative AI prompts.		Actionable AI-Driven Insights for Finance Teams InvoiceAgility, powered by Tungsten Copilot, delivers actionable generative AI insights that enhance financial visibility and optimize cash flow. This advanced platform empowers AP teams to analyze supply chain trends, enabling organizations to eliminate late payment fees, capitalize on early payment discounts, and negotiate more favorable vendor terms.	

3 Feature Tiers			
	Standard	Advanced	Enterprise

Who Benefits from InvoiceAgility

InvoiceAgility appeals to both strategic and functional leaders. It provides financial control, insights, and flexibility to finance teams while offering simplicity, accuracy, and speed to tactical teams that rely on optimized performance metrics.

Finance Leaders: Gain visibility and flexibility with cash flow for strategic decisions.

Avoid late payment fees, seize early payment discounts, and lower operational costs.

- Enhance visibility and responsiveness in cash flow management
- Negotiate optimal vendor payment terms
- Integrated with your ERP for a single system of record

AP Teams: Accurately and quickly ingest, validate, and route any invoice type.

- Handle virtually any supplier invoice, whether physical or electronic
- Process invoices in minutes, reducing DPO (days payable outstanding)
- Automation improves quality, reduces exceptions, and quickens resolutions
- Vendor self-service via e-invoice portals reduces supplier inquiries
- White-glove supplier onboarding for e-invoicing, supported by SLAs

Shared Services Leaders: Track key AP processes and performance metrics.

- Simplify processes with automated compliance
- Measure touchless invoicing, DPO metrics, and more
- Seamless integration with ERP streamlines reporting

Procurement Leaders: Ensure supply chain resiliency.

- Promote supplier transparency for enhanced business relationships
- Ensure timely payments with real-time status updates for suppliers
- Adapt quickly to supply chain changes with agile systems
- Onboarding SLAs help ensure suppliers enjoy the e-invoicing experience

Suppliers: Know the status of payments and strengthen customer relationships.

- Submit invoices in preferred formats
- Reduce DSO (days sales outstanding)
- Boost invoicing accuracy and speed
- Track invoice status in real-time
- Leverage e-invoicing benefits for every customer

Compliance Teams: Ensure regulations and requirements are fulfilled.

- Meet government regulations for tax and e-invoicing
- Set practices and automation simplify audits
- Greater transparency more quickly identifies fraud

Why Customers Chose Tungsten Invoice Automation

Trust

Global scale with regional presence processing
500 million invoices per year

Performance

Any invoice, any format processed with
your business rules applied

Financial Process Expertise

World's largest compliant e-invoice
business transaction network

e-Invoice Onboarding

White Glove supplier enrollment
backed by SLAs

Embrace the power to handle any invoice, in any format, from anywhere,
and eliminate government and business compliance concerns.
